

Shut Up Lyrics Alan Walker and UPSAHL

You re miserable inside your mind
Oh my oh my
Been dancing in circles round your lies
You re stepping on the dreams
Of everyone you meet
This stupidity will get you high

Why don t you just shut up
I m telling you we ve had enough of
You and all your bullshit
We ve heard it all before

Why don t you just shut up
I know you gonna come But so what
Won t catch you on the fall cuz
You Can t hurt us anymore

Why don t you just shut up
Why don t you just shut up

I wonder what happened to you
Oh my oh my
To make you want to spin the truth
All night all night
You sink your teeth insult
To injury and we watch
Your high horse running on the loose

Why don t you just shut up
I m telling you we ve had enough of
You and all your bullshit
We ve heard it all before

Why don t you just shut up
I know you gonna come
But so what
Won t catch you on the fall

Can t hurt us anymore

Why don t you just Shut up
Why don t you just Shut up
Why don t you please
Why don t you just shut up
